# PADOVA AND VENICE LAGOON

## ABOUT

Padova's just received the second recognition as Unesco heritage because of the great 14th Century frescos of Giotto. This lively city is worth a visit also because of the market and the aperitivos. Our tour starts here. We'll explore the close by Euganean hills and its green countryside, we will cycle along slow rivers, overlooked by elegant historic villas, and then finally, after a short and panoramic ferry ride, reach Venice and its islands: thin strips of land, between lagoon and sea.

## PROGRAM

### DAY 3 – From Padua to Venice by bike (45 km)

We bike out of Padua towards East along the Brenta river, we can visit some Venetian Villas too. The route is flat, the breeze smells of the sea. We cycle until Fusina, from where a ferry will take us to the island of Lido: 20 minutes of pure wonder. Overnight in Lido (Venice).

### DAY 4 – Lido e Pelletrina by bike (40 km)

The islands of Venice have the same architecture of rare beauty as the city on the water. However, they are less dense, less crowded and look at two very different environments: the lagoon and the Adriatic Sea. # VALDADIGE AND THE ALPS

## ABOUT

The Sun Route (which in its full length goes from Brennero to Fimber) is already a classic: almost all flat with majestic mountains all around, safe and well signposted, with good bike grills where to enjoy a drink at open air tables and nice cities where to stop at. The path initially goes through a region where language and culture are linked with the German tradition. Once you leave the mountains behind, no German language nor knödeln any more, but polenta and Valpolicella!

Continue pedaling along the Adige river, in an area dotted with castles, towers and forts, such as the mighty Beseno Castle, which dominates the valley from the top of a hill. ### DAY 4 – From Rivalta to Verona (63 km / 80% bike path)
